DETAILED ACTION

1. Claims 43-62 are pending. Claim 62 is withdrawn from consideration as being drawn to a non-elected invention.
2. Applicant's election of Figure 5A, with claims 43-54 and 57-61 in the reply filed on March 26, 2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. Claims 55 and 56 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 26, 2008.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 43-54 and 57-61 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 43, lines 4, 6, "an account" is referenced. It is not clear if "an account" is one account or separate accounts. Clarification is required.

Claims 43, lines 9-13, "a previous transaction" is referenced three separate times. It is not clear if one or multiple transactions are being referenced. Clarification is required.

Claim Rejections - 35 USC § 103

6. Claims 43-54 and 57-61, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Joao et al., US 7,096,003.

Joao discloses a computer implemented, e.g. 3, method for use over the Internet comprising a banking transaction terminal, e.g. 102, a transaction authorization communication device, e.g. 104 (may be wireless), where an entity may review an account and where the charge/debit/bank card account contains information regarding a charge-back, and a processing device, e.g. 103. Joao does not disclose the phrase previous transaction or electronic money. However, as understood, the reports that may be generated by Joao may be viewed as previous transactions that are contained in the reports generated and charge/debit cards may be viewed as electronic money. Also, Official Notice is taken that generation of reports of previous transactions of an account have been common knowledge in the accounting art as has been using electronic money with account cards. To have provided a previous transaction and electronic money for Joao would have been obvious to one of ordinary skill in the art in view of this common knowledge.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
